# INTRODUCTION

---

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1935 edition of the Greensboro City Directory. This edition is marked by two new features—the designation of the number of children in each family, shown in the Alphabetical List of Names, and the designation of tenant-owned homes, shown in the Directory of Householders.

Confidence in the continued growth of Greensboro's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Greensboro to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Greensboro Directory will fulfill its mission as a source of authentic information pertaining to the city.

## Population

The population of Greensboro is estimated at 67,932, based on the number of personal names in the Alphabetical section of the Directory, with due allowance for those under Directory age. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory, and, likewise, in the population estimate.

## Four Major Departments

The four major departments are arranged in the following order:—

**THE BUYERS' GUIDE**, pages 25 to 52, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Greensboro. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Greensboro, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

**THE ALPHABETICAL LIST OF NAMES** of residents and business and professional concerns is included in pages 53 to 417. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Greensboro, and the name, official personnel, nature and address of each firm and corporation in the city. A new feature of this section is the designation of the number of children in each family.

**THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, covers pages 421 to 544. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A new feature of this section is the designation of tenant-owned homes.

**THE CLASSIFIED BUSINESS DIRECTORY** is included in pages 545 to 583. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

### **Municipal Publicity**

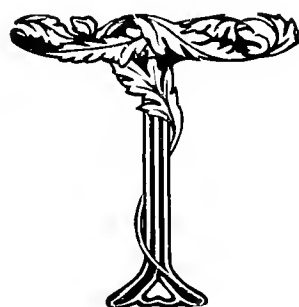

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Greensboro.

### **The Greensboro Directory Library**

Through the courtesy of the publishers of the Greensboro City Directory, a Directory Library is maintained in the offices of the Greensboro Chamber of Commerce, for free reference by the general public. This is one of nearly 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,  
Publishers.

AERIAL VIEW OF GREENSBORO

## Statistical Review

Form of Government—Council-city manager.

Population—Total, 53,569; white males of age, 18,817; white females of age, 20,226; total colored, 14,050 (1930 U. S. Census). American-born, 99.1%. City Directory canvass by Hill Directory Co. in March, 1935, estimates population at 67,932. Local estimate, 65,000.

Area—18.4 square miles.

Altitude—843 feet.

Climate—Mean annual temperature, 59 degrees F.; average annual precipitation, 47.47 inches.

Parks—18, with total of 404.6 acres, valued at \$155,000.

Assessed Valuation — \$80,500,000, with \$1.05 per \$100 tax rate.

Bonded Debt—\$6,267,494 (net).

Financial Institutions—2 national banks and 1 industrial bank, with total deposits of \$9,291,931.72 (Dec. 31, 1934), and total resources of \$10,687,969.95 (Dec. 31, 1934). 2 building and loan associations, with total assets of \$2,568,187.71 (Dec. 31, 1934).

Postal Receipts—\$473,410.53 (calendar year 1934).

Telephones in Service—8,505.

Churches—73, representing 22 denominations.

Building and Construction—Value of building permits, \$618,702 (1934).

Real Estate—12,061 dwelling units in 11,000 structures, a substantial number of which are owned by their occupants.

Industry—107 manufacturing establishments, employing 9,100 workers, paying wages of \$10,000,000 (est.) annually, and having products valued at \$40,000,000 annually (based on 1931 U. S. Census of Manufactures). Principal manufactured products: Textiles, including hosiery, denims and overalls; clothing, machinery, proprietary medicines, wood products, fertilizers, structural steel, foundry products, chemicals and terra cotta.

Trade Area—Retail area extends from 30 to 75 miles, with population of 908,950; wholesale area, radius of 200 miles, and population of 4,000,000.

Newspapers—2 dailies, 1 semi-weekly and 1 weekly.

Radio Stations — WBIG (1,000 watts, Columbia Chain).

Hotels—2 "Class A," with total of 900 rooms. Also 6 "Class B." Newest hotel opened in 1927.

Railroads—2: Southern and Atlantic & Yadkin (Latter connects with Norfolk & Western, Norfolk & Southern, Seaboard Air Line and Atlantic Coast Line).

Highways—U. S. 29, 70, 411 and 421; State 10, 60, 64, 70 and 704.

Airports—1, municipal (regular mail and passenger service).

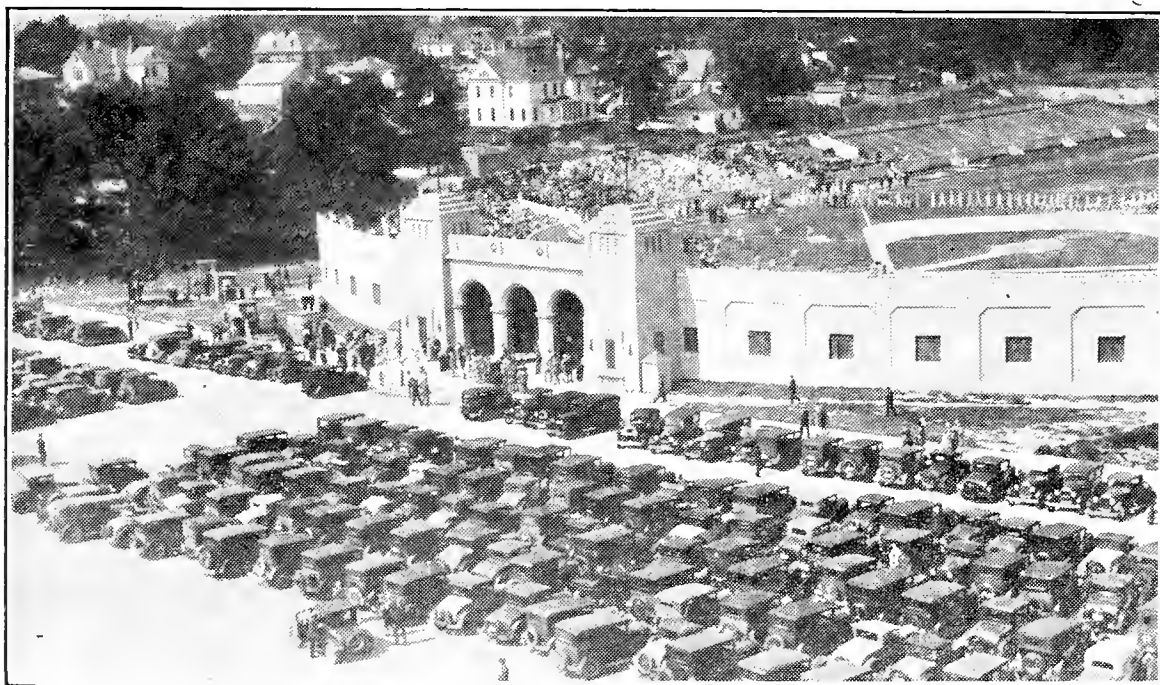

Amusements—Largest auditorium (University of North Carolina College for Women) seats 2,800 persons. 8 moving-picture theatres, with total seating capacity of 5,800 persons. 3 golf courses.

Hospitals—8 (including sanatoriums), with total of 400 beds.

000 gallons; daily average pumpage, 4,500,000 gallons; miles of mains, 166; value of plant, \$3,422,475. Fire department has 47 men, with 5 stations and 16 pieces of motor equipment. Value of fire department property, 433,531.91. Police department has 54 men, with 1 station and 13 pieces of motor equipment.

### History

On March 15, 1781, the Battle of Guilford Court House was fought, about four miles from what is now Greensboro. So intent was General Nathaniel Greene on crushing Cornwallis' victorious march through the South that he little realized he was to title a city of the future. Although the battle was not decisive, General Greene fought so fiercely that Cornwallis' army changed its course, moving east, where it later entered the Battle of Yorktown so badly crippled that it was unable to stem the trium-

WORLD WAR MEMORIAL STADIUM

Education—Institutions of higher learning include University of North Carolina College for Women, Greensboro College, St. Benedict's School, Bennett College for Women (c), Immanuel Lutheran College (c) and Negro Agricultural & Technical College of North Carolina. 22 public schools, including 1 senior high and 3 junior high. 1 parochial school, with 75 pupils. Number of pupils in public schools, 14,000; teachers, 278. Value of public school property, \$4,225,000; parochial, \$23,000; college, \$9,000,000.

Public Libraries—2, with total of 42,624 volumes. Also college library open to public, with 65,000 volumes.

City Statistics—Total street mileage, 187.55, with 135 miles paved. Miles of gas mains, 99.2; sewers, 186; electric street railway, 10.3. Number of water meters, 9,500; light meters, 13,833; gas meters, 4,225. Capacity of water works (municipal), 1,417,000,-

phant wave of the American forces. The victory and the end of the Revolution has been laid by authorities to the result of the Battle of Guilford Court House. The scene of this battle is now Guilford Court House National Park, a mecca for tourists and students of history, because it is known as "The Turning Point of the Revolution."

Guilford County was settled in 1772 by Scottish-Irish and German stock from Pennsylvania, and English and Scotch Highlander immigrants. It was named for Frederick, Earl of Guilford, better known as Lord North. Its people were simple and rural. They possessed no large estates or wealth. They were intensely religious, democratic, arduous in the pursuit and advancement of education, energetic and thrifty, home-loving and liberty-seeking. The original county seat was Martinsville,

where was fought the Battle of Guilford Court House.

In 1808 Greensboro was founded as the county seat of Guilford and named for the famous General Greene. The townsite was located in the geographic center of the county. Commissioners paid Ralph Gorrell \$98 for forty-two acres of land, and the new county capital and court house was laid off there.

Almost from its beginning, Greensboro forged ahead in education. Dr. David Caldwell established his noted "Log College," the forerunner of several academies and schools founded in 1816, 1820, 1833 and 1836, leading up to the chartering in 1838 of Greensboro Female College, the grading of public schools in 1872, the establishment of North Carolina College for Women (now University of North Carolina College for Women) in 1892, and the building of three Negro colleges.

Greensboro had a cotton mill as early as 1834, but it was in Reconstruction days that it began to be an important commercial and industrial factor. Its central position in the state then, as now, was its chief reason for growth. Here three main traffic arteries (Federal highways) converge. In 1856 came the first railroad (built by the State).

At the turn of the century, Greensboro's real growth began. In 1892 came Caesar and Moses Cone to establish their cotton mill development, which today is a world leader in the textile field. Greensboro has forged steadily ahead industrially, commercially and educationally, capitalizing its advantages of accessibility, climate, ideal labor conditions, agriculture, power, transportation, raw materials and a spirit of progressive enterprise.

PAGEANT POSED ABOUT STATUE OF GENERAL NATHANIEL GREENE AT  
SESQUI-CENTENNIAL CELEBRATION OF BATTLE OF  
GUILFORD COURT HOUSE

Prior to 1860 the city was Whig, and opposed to secession. John A. Gilmer, of Greensboro, was offered a place in Lincoln's cabinet, but the city, of course, finally supported the State and the Confederacy. It was at Greensboro that General Joseph E. Johnston disbanded his army following his surrender to Sherman, and it was in the railway station here that Jefferson Davis is said to have held his last official cabinet meeting. Greensboro's citizens have always taken a prominent part in state affairs. John M. Morehead, as Governor, was one of the state's foremost proponents of good roads as early as 1840, and the chairman of the State Highway Commission now administers the entire highway system of the state, North Carolina having been the first state to consolidate state, county and township roads under a single control.

#### Location

Greensboro is the pivot and focal point of the rich "Piedmont" section of the two Carolinas and a part of Virginia. It is equidistant from Atlanta and New York, each being approximately twelve hours by rail and five by air from Greensboro. Here also crosses the main east-west traffic arteries of the state and one of the main north-south highways. Other important roads converge at Greensboro to make it the hub of highway transportation.

The Piedmont area of North and South Carolina contains 46% of the population of the two states, and produces over 73% of their industrial output. From Greensboro into all sections of the Piedmont radiate the belts of traffic, over railroads and highways. That Greensboro is the logical, dominant "pivot" of this area is demonstrated by the fact that over

1,500 traveling salesmen and agency representatives make their home and headquarters here.

Two railroads serve Greensboro: The Southern and the Atlantic & Yadkin. The Norfolk & Western, Seaboard Air Line, Atlantic Coast Line and Norfolk & Southern employ the Atlantic & Yadkin as a connection into Greensboro, giving the city the competitive service of six railroads. Forty-eight passenger trains arrive and depart daily in six directions from a new and modern \$1,000,000 station. The main north and south double-track line of the Southern intersects the main east and west trans-state line of the Southern at Greensboro. All important grade crossings have been separated to safeguard life and property and to speed traffic. Seventy buses leave here daily for every section of the state. There is also a complete system of regular motor transport, with two up-to-date truck terminals.

Two northbound and two southbound air mail planes leave the Greensboro airport daily, besides two passenger planes daily, in each direction (temporarily suspended during major improvements to field). A letter mailed here after business hours will be in New York or Atlanta the following morning by rail, and in Chicago, New Orleans or Boston the same morning by air.

#### **Municipal Government**

Greensboro has been especially fortunate in its selection of those men into whose hands its affairs of government are placed, and extraordinary municipal progress which the city has made is largely due to the complete confidence which the taxpayers have in the integrity and ability of municipal officials. With a councilmanic-city manager form of government and non-partisan elections, modern machinery is provided for the efficient dispatch of the city's business, which insures business leadership of the highest character. At the helm of Greensboro's municipal government there have long been business men of unquestioned integrity and sound business judgment, often serving at great personal sacrifice to themselves.

Among those who have served on the city council are men who have made outstanding successes of their own businesses. These men have brought to the city a managerial skill never possessed by cities influenced by petty partisan politics. As a result, the physical facilities of Greensboro are strikingly attractive and effective.

Greensboro has good water, and plenty of it, carefully safeguarded as

to purity and sanitary distribution. The water works have a capacity of 1,417,000,000 gallons, with a 21,000,000-gallon reservoir for filtered water, a supply sufficient to serve the city for many years to come.

The sewer system is comprehensive, well-planned and adequate, with 186 miles of mains laid. A highly-effective disposal system is in operation, and enlargements to accommodate future needs are definitely planned.

A well-planned program of street-widening, as well as paving, is being carried on under a comprehensive city plan designed to provide Greensboro unusually adequate intra-city transportation facilities. The mileage of paved streets in the corporate limits has steadily increased from 32 miles in 1922 to 135 miles in 1934. Thoroughly up-to-date automatic traffic control systems have been installed at possible danger points. The streets, totaling 187.55 miles, are well-kept and clean.

Greensboro's public school system is a point of genuine pride, having been rated 96.4 out of a possible hundred by the North Carolina Department of Education. The 13,000 school children have 22 modern school buildings, including three junior high schools and a new senior high school. The municipal school plant has a total valuation of \$4,225,000. There are 278 instructors, and the annual budget is one-quarter of a million dollars. The excellent collegiate educational structure will be commented on later.

An up-to-date fire department consists of 47 men, efficiently governed and equipped with the latest apparatus. Greensboro has one of the most complete fire-alarm systems in use today. Every part of the city and many important buildings are covered with alarm boxes. Greensboro's record in reduction of fire losses is outstanding. In 1927 the inter-city award was won for the lowest fire loss of any city in its class in the United States, and in each year since that time, honorable mention was received in the same contest. There are five station houses strategically located in the city, and the equipment has a value of \$433,531.91.

Greensboro's police department comprises 54 officers and men. It is provided with modern physical facilities, radio intelligence equipment, a complete and efficient identification bureau, and a comprehensive system of city-wide telephone signals with centralized control. Short-wave radio transmission has been installed at headquarters to maintain constant communication with "roving" police automobiles and to insure traffic safety. Greensboro has long been

UNION RAILROAD STATION

kept free from organized lawlessness such as prevails in many other cities.

Two essential steps have been taken in planning for the future—the adoption of a comprehensive city plan administered by a competent planning commission, and the enforcement of a modern building code. Zoning laws have been passed to maintain desirable neighborhood classifications. Municipal activity has been governed insofar as possible with an eye to the future growth of Greensboro.

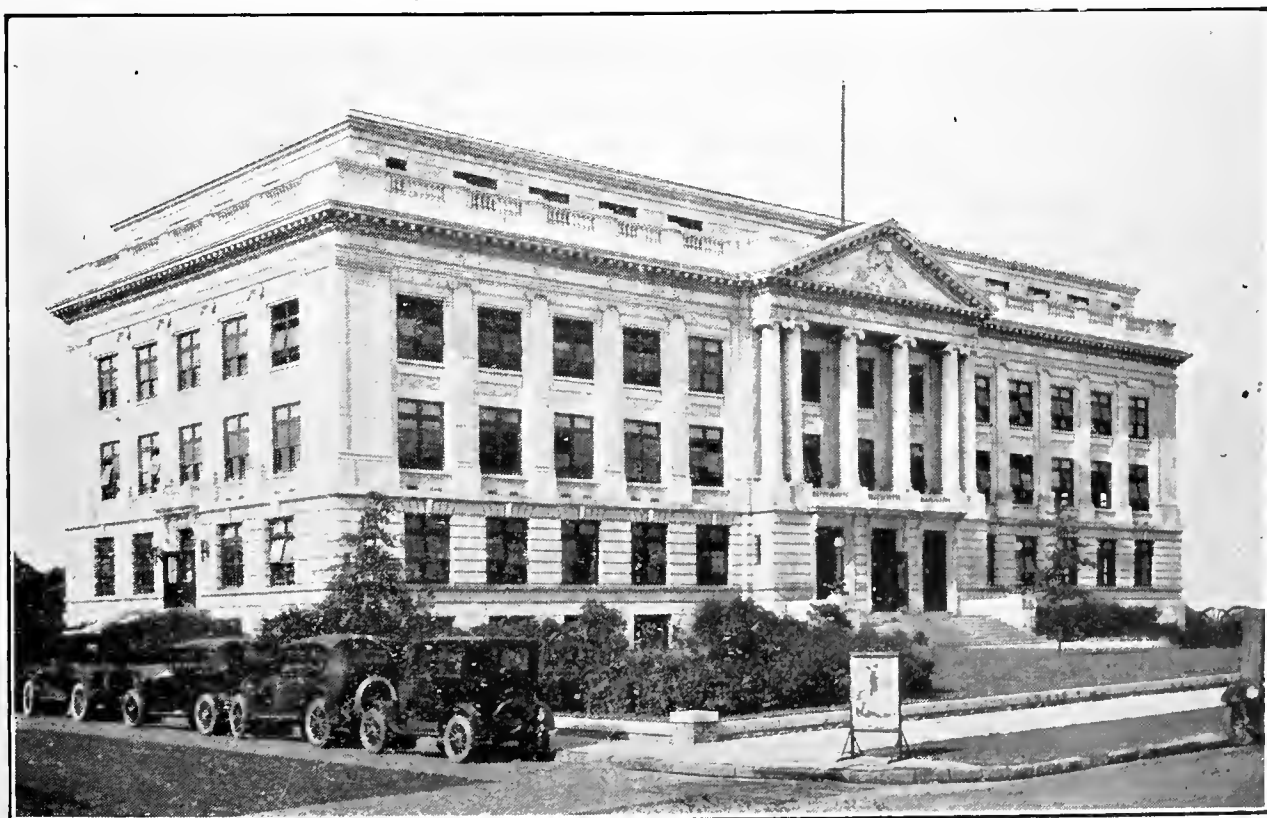

#### A Healthful Place to Live

Greensboro is blessed with a mild, life-prolonging, delightful climate. Its average monthly temperature compares favorably with that of famous European resorts along the Mediterranean shores of northwestern Italy and southern France (Monte Carlo, Nice and Genoa). Greensboro has neither bitter winters

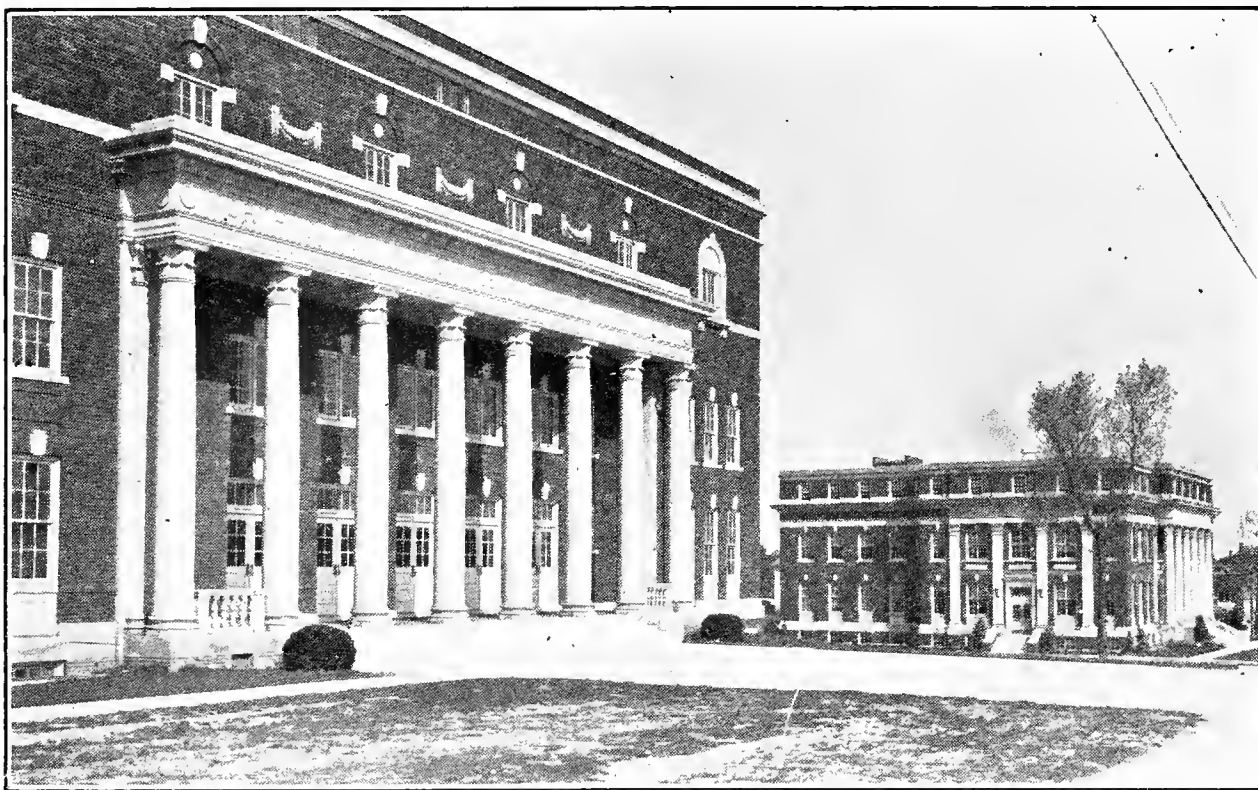

nor oppressive summers, but rather only a moderate fluctuation from the coldest to the warmest days.

Greensboro's altitude (843 feet) and drainage practically eliminate "low-country" ailments, such as malaria fevers. The air is clear and bracing, with no violent atmospheric disturbances. The Government Weather Bureau figures over a period of forty years show that Greensboro has more clear days (136 per year) than Jacksonville (129), Miami (99), Tampa (126), Atlantic City (123), or Asheville (124). Greensboro has comparatively little snowfall (total average, 6.8 inches per year) as compared with such centers as Atlantic City (16.9), Denver (40.4), Asheville (11), Omaha (19.9), and Chicago (33.7).

United States Weather Bureau reports for Greensboro:

**VIEW OF AYCOCK AUDITORIUM AND MUSIC BUILDING AT  
COLLEGE FOR WOMEN, UNIVERSITY OF NORTH CAROLINA**

Normal average temperature (annual), 59 degrees.

Average humidity, 53.185.

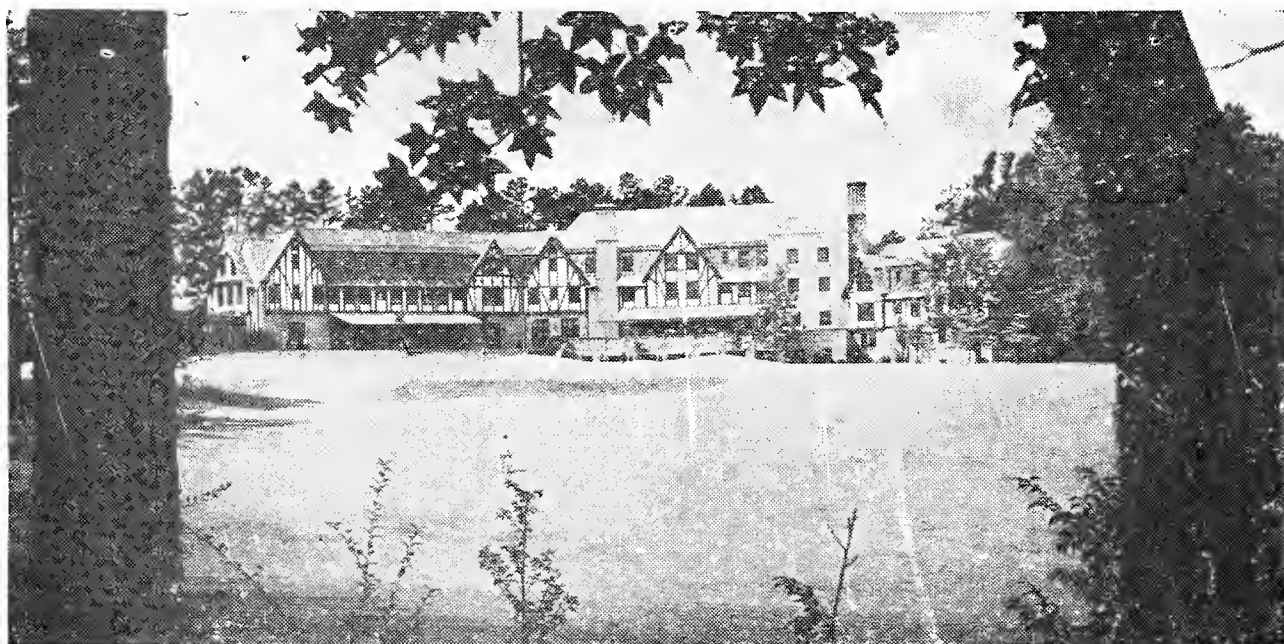

Annual precipitation, 47.47 inches.

Greensboro is only two hours' drive from those famous winter resorts—Pinehurst and Southern Pines, and only four to six hours' drive from mountain summer resorts such as Asheville, Blowing Rock, Linville, Roaring Gap and Chimney Rock, and Atlantic Coast resorts. Its climate is the "happy medium" between that of these resort centers, being on the plateau between the mountains and the coastal plain. Taking advantage of this climatic ideal, a beautiful all-year resort center has been established at Sedgefield, near Greensboro, which has become widely known as a golfer's and sportsman's paradise.

Relatively high day-time temperatures give relief from the severity of Northern winters, and low night temperatures permit comfortable sleep, in contrast to the enervating heat prevailing farther south.

#### **Recreational Facilities**

Greensboro is the sports-lover's paradise. Golf, tennis, horseback-riding, hunting of all sorts, fishing and a variety of other sports are available either in Greensboro or in the immediate vicinity. A prominent part of this phase of the city's life is played by the new World War Memorial Stadium, within a few blocks of the heart of the city, which attracts many of the major college athletic events of the section, and the leading inter-scholastic events. The stadium seats 9,200 persons, and is

**SEDFIELD INN AND GOLF COURSE**

equipped with fields for day or night-time football, baseball, track, tennis and other sports. The stadium was erected in 1927 at a cost of \$150,000, donated by citizens of the city and county.

In 1934 Greensboro established a recreation center near Guilford Battle Ground National Park, expending more than \$600,000 in improvements, including three lakes for fishing, boating and swimming.

Greensboro has one public and two private golf courses. The famous Valley Brook course at Sedgefield Inn is a championship layout, where competitions of national import are staged. The Southern Amateur Tournament was held there in 1930; and the sectional tournament qualifying for the National Open in 1935 was also held there. The Greensboro Country Club

course is one of the oldest Class "A" courses in the South and is regarded as one of the most attractive. The Hamilton Lakes course, now known as "Starmount," an 18-hole layout of rare beauty, was put in play in the fall of 1930. Designed and built as a championship course, it is considered favorably for the National Public Links Tournament. The equable year-around climate here makes Greensboro ideal for golf.

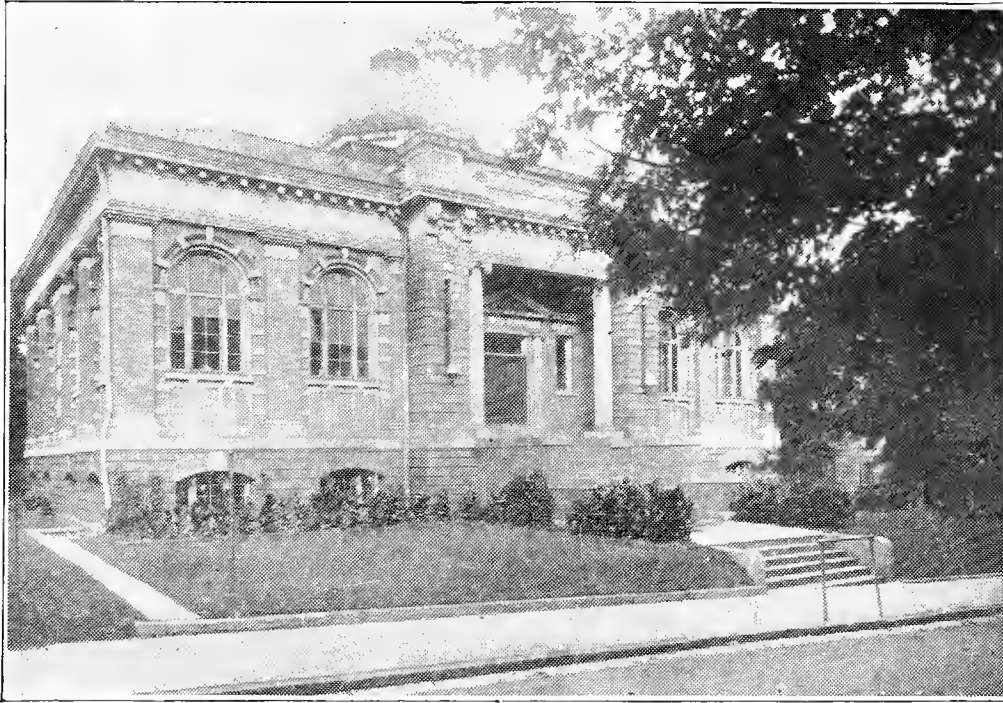

Greensboro's theatres are up-to-date, both as to their houses and the character of their entertainment. The moving-picture houses have a total seating capacity of 5,800.

Due in part to the local colleges, Greensboro has, for ten months of the year, the satisfying advantage of fine music, famous singers, orchestras, opera, outstanding lectures and

JEFFERSON STANDARD LIFE INSURANCE COMPANY BUILDING

ONE OF GREENSBORO'S THREE PUBLIC LIBRARIES

kindred cultural advantages. Such organizations as the Civic Music Association and the college dramatic societies make a real contribution to the aesthetic life of the community.

About 1,700 acres of land have been set aside for parks and playgrounds in Greensboro and the city has the reputation of having more play area per student about its public schools than any city in the country. Three Y. M. C. A.'s, Y. W. C. A., professional league baseball, public and private swimming pools, trap-shooting and "skeet," bowling, and similar facilities offer a wide variety of recreational opportunities.

Five miles from the heart of the city is beautiful Guilford Court House National Park, the scene of the famous encounter between Cornwallis and General Nathaniel Greene. The battlefield contains twenty-two memorials to Revolutionary heroes. This historic preserve is visited yearly by thousands of tourists, and in 1931 was the scene of the sesqui-centennial celebration of the battle, which was attended by over 40,000 spectators from all parts of the South and East.

#### **Educational Facilities**

An outstanding advantage of Greensboro is its extraordinary educational structure. Several thousand out-of-town students and faculty members attend its schools and colleges.

Greensboro College, organized in 1838 by leaders of the Methodist Episcopal Church, South, has an enrollment of over 300 women students, and assets amounting to \$1,056,000. The College for Women, University of North Carolina, created by legislative enactment in 1891, has a yearly enrollment of about 2,000 and a faculty

of 170, and includes a college of liberal arts, a school of education, a school of music, a school of dramatic art, a school of commerce, a department of secretarial science, a department of health, school of physical education, and a school of home economics. Five degrees are given, including A. B., M. A. and B. S.

Five miles west of Greensboro is Guilford College, organized by the Society of Friends (Quakers) in 1837. Its enrollment is now about 500. On the other side of Greensboro is Oak Ridge Institute, a preparatory military school for boys. It was founded in 1852, and in 1926 became a Junior R. O. T. C. unit. It now has over 250 students and an adequate plant valued at \$250,000. It is a preparatory school for college, and offers a commercial course.

Other institutions in Greensboro are the Greensboro Bible and Literary School and King's Business College.

Greensboro is a center of education for the Negro race as well. Here is the North Carolina Agricultural and Technical College, with a yearly enrollment of 900 and a million-dollar plant. Bennett College for Women, with 300 students, and Immanuel Lutheran College for ministers and teachers, with 200 students, are also here.

Practically every religious denomination is represented among Greensboro's 73 churches.

#### **Present Industrial Structure**

In Greensboro, textiles predominate, but do not dominate. Industry is well diversified. There are great cotton spinning and weaving and fabricating plants; broad silk and silk hosiery mills; structural steel, foundry and machinery establish-

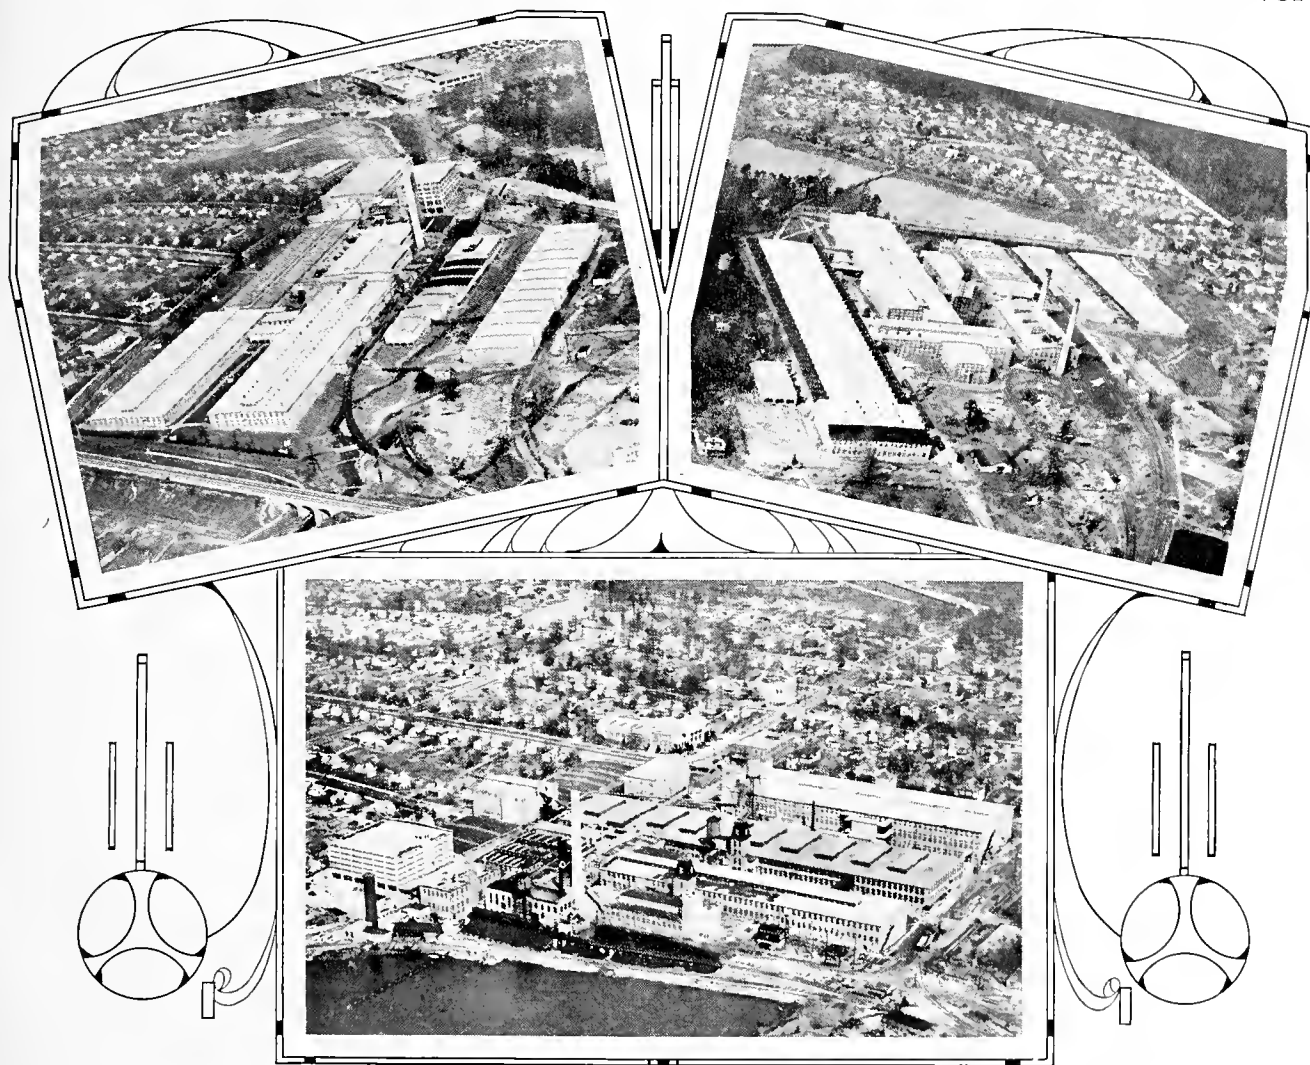

ments; terra cotta and chemical works. Greensboro's manufacturing industries, totaling 107 plants, manufacture \$40,000,000 worth of goods per year, and 9,100 workers are employed.

The largest single industry is that of the Cone interests (White Oak, Proximity and Revolution Mills), the White Oak cotton mill being the largest denim mill in the world. The Blue Bell Overall Co. has the largest overall plant in the country. Four hosiery mills are here—Mock-Judson-Voehringer, Inc., Greensboro Full-Fashioned Hosiery Mills, Inc., Juvenile Hosiery Mills, Inc., and Bogle-

Numerous advantageous industrial sites and a few industrial buildings are available, with adjoining railroad trackage or highways. There is a plentiful supply of native white and Negro labor, easily trained and industrious. There has never been a general industrial strike in Greensboro, and industrial disturbances of any kind are exceedingly rare.

A constant supply of power is available from almost unlimited resources, and at reasonable rates. Great resources of various raw materials are close at hand.

These factors have tended to diver-

**"CONE MILLS"—TOP LEFT, WHITE OAK MILL—TOP RIGHT, REVOLUTION MILL—BELOW, PROXIMITY MFG. CO., WORLD'S LARGEST PRODUCERS OF COTTON DENIMS**

Watkins Co. Greensboro is an outstanding full-fashioned silk hosiery center.

Greensboro Mfg. Co. and Universal Apron Co. manufacture sleeping garments and a variety of cotton textile products.

Greensboro is the "home town" of Vick's Vaporub, Vick's Nose Drops, Voretone and Vick's Cough Drops; El Moro, ElReesO and other popular brands of cigars; Pomona terra cotta, Glascock stoves and ranges, leather goods, fabricated steel and iron, clay products, medicines, automobile bodies, elastic webbing, lumber products, fertilizers, dairy products, ice, laundry machines, woodworking machines and foundry products.

sify Greensboro's industrial structure, as well as develop it. The city is not dependent on any one line of manufacture, and consequently is immune from those periods of violent depression which paralyze communities in which a majority of the workers are employed in a single line of work. Throughout the entire period of national business decline beginning in 1929, there has been no general shut-down of industry in Greensboro. Major industries have operated continuously.

It is impossible to present adequately here either Greensboro's present or potential industrial advantages. Those interested may obtain from the Greensboro Chamber of

Commerce more detailed information. A research staff is maintained to compile intelligently specific industrial and distribution data for responsible inquirers. Inquiries are handled with professional confidence.

### **Retail Trade**

Greensboro is a recognized retail center attracting partial purchasers from an area of from 55 to 75 miles in several directions. Approximately 1,000,000 people reside in this trade area. Within one hour's auto ride of Greensboro live more than 700,000 people, according to the 1930 U. S. Census figures. This area has a greater rural and urban purchasing power than any similar area in the Southeastern states, and more paved roads and more automobiles to enable purchasers to reach the market center. Statistical data show 133,000 families with an annual purchasing power of \$157,000,000 residing within Greensboro's trade territory.

Due to its tremendous market, the retail trade in Greensboro is of a very high type. The shops are modern, and the merchandise handled of a variety and quality above the average. Prominent in the retail life of Greensboro are the two daily newspapers and the several weeklies published here. The Greensboro Daily News, with a morning circulation of about 44,500, is one of the most powerful in the state. The Record is a fast-growing and popular afternoon daily, with a circulation of about 12,150.

Greensboro has 8 hotels, most of which are of the modern fireproof class, offering about 900 "Class A" rooms. The O. Henry, King Cotton and Sedgefield Inn are the most prominent.

### **Wholesale Trade**

Due to its strategic position in transportation and communication and the centralization here of the business interchange of the Piedmont area, Greensboro's wholesale houses and agency representatives reach out far beyond the bounds of its retail trade. More than 1,500 traveling agents have found Greensboro a logical place for their homes and headquarters, a great many of them traveling from district and territorial

offices located here. The city has an abundant supply of modern offices and bonded warehouse space at reasonable rents, and this fact, coupled with an advantageous position, is causing the location here of numerous branch warehouses, district offices, laboratories and agencies.

Within Greensboro's wholesale trade area of approximately 100 miles live nearly 1,500,000 people, with twelve towns of 10,000 or more population. In this jobbing area are more than 2,000 miles of paved, and 700 miles of sand-clay roads, which, together with rail facilities, greatly simplify distribution and close customer contact.

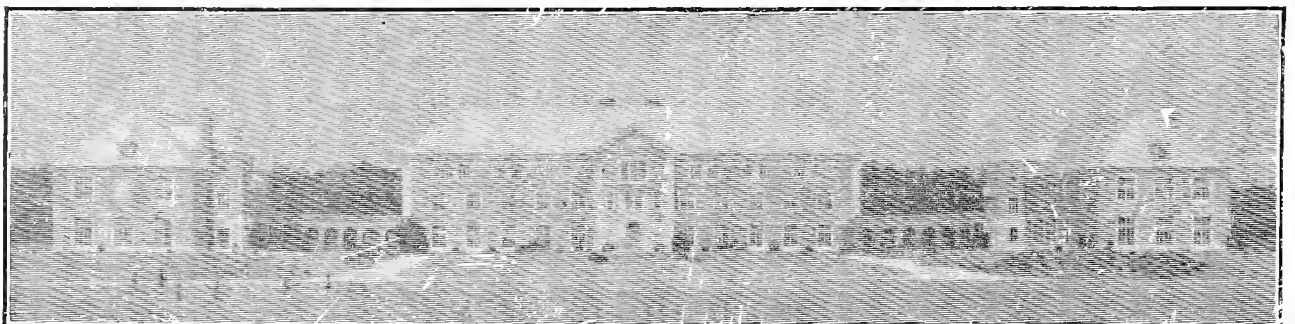

Greensboro holds a dominant place in the state and reaches into the surrounding states, in hardware distribution. In drugs it is almost as favored, and it is particularly strong in the distribution of food products, produce, tobacco, bread, dry goods and clothing.

The Greensboro Chamber of Commerce has compiled exhaustive data on the consuming power and distribution advantages of this territory.

### **Insurance Center**

Seven insurance firms have their home offices in Greensboro, and a number of state headquarters for out-of-state companies are located here. The city is frequently referred to as "the Hartford of the South." Almost every type of insurance coverage is provided locally, giving Greensboro companies an annual premium income of approximately \$20,000,000. These companies have made substantial investment in physical properties in Greensboro and the surrounding section. Their business is steady; their payrolls constant. They provide a stable and diversified commerce enjoyed by few contemporary cities.

Greensboro has adequate facilities for doing business—banking, transportation, communication, professional services, etc. It is a natural banking center. The Security National Bank, with commercial branches in several other North Carolina cities, and The Guilford National Bank, administer in Greensboro the financial resources of a considerable area.

**PILOT LIFE INSURANCE COMPANY HOME OFFICE**

THE O. HENRY HOTEL

The services of nationally-recognized accountants, accredited appraisers, outstanding lawyers and technical advisors are available as a necessary business aid.

The municipal government is organized and equipped to provide the physical facilities and services needed to promote and safeguard the commercial and industrial interests and progress of Greensboro.

Greensboro possesses unusually well-balanced economic advantages. All its "eggs" are not in one "basket." The sources of income, the facilities for commerce and the potentialities for progress are widely diversified,

providing insurance against excessive fluctuations, booms or depressions. Greensboro is a safe, sound, secure and stable place in which to live and make a living.

ON EARTH

---

---

# The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

---

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

# THE BUILDING OF THE PYRAMID

All of the toil and effort that went into the building of those mammoth Pyramids which have weathered the storms of centuries and the hot Egyptian sun—all of this would not compare with the toil and effort used to build this pyramid of assets.

But there is a difference. The Egyptian Pyramids were builded by slaves as monuments to kings, builded by the driving toil of unwilling hands. The National Pyramid is builded by free men in the pursuit of health and happiness for their loved ones, builded by willing hands and unselfish hearts.

## Year By Year---Follow---The Building of The Pyramid

Year — Assets	
1860 .....	\$272,275
1870 .....	\$1,011,972
1880 .....	\$2,386,737
1890 .....	\$6,763,845
1900 .....	\$19,892,635
1910 .....	\$50,438,517
1918 .....	\$71,038,415
1919 .....	\$73,060,254
1920 .....	\$74,598,139
1921 .....	\$79,762,454
1922 .....	\$84,510,533
1923 .....	\$89,212,325
1924 .....	\$93,897,772
1925 .....	\$98,474,809
1926 .....	\$104,625,915

## The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

Chamber of Commerce

**City Directory Library**  
**FREE REFERENCE**

Directory of Householders, Occupants of Office Buildings and  
Other Business Places, Including a Complete  
Street and Avenue Guide

## 1935

Copyright, 1935, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householders name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(c) denotes colored.

## The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**
